Course objectives

On completion of the course you will have developed a good foundational understanding of the core principles, the various norms and prohibitions that govern activities and contracts in the Islamic financial system, the differences between the Islamic financial system and the conventional system, as well as the basic modes of Islamic finance. The case study will provide you with “real-life” situations and allow you to apply the content and knowledge you have acquired during this course.

Target audience

General practitioners working in banks, corporates, or financial institutions in functions such as Relationship Management, Credit, Compliance, etc. but with an interest in trade finance.

Course outline

- Lesson 1** General Overview
- Lesson 2** Ethics in the Islamic Financial System
- Lesson 3** Islamic Financial System Part 1
- Lesson 4** Islamic Financial System Part 2
- Lesson 5** Case Study
- Lesson 6** Assessment

Assessment

This eLearning course will include a self-assessment tool to help you prepare for the Global Trade Certificate (GTC) Final Examination if you choose to obtain this Certificate. The passing grade for the Final Examination is set at 70%.

What is an ICC Academy online course?

ICC Academy courses are delivered via our Learning Management System (LMS) using innovative tools for combining digital learning with industry-centric community discussions.

Our courses are available for purchase individually or as pre-designed packages (ie: Certificates) and are delivered exclusively online. They include videos, animations, case studies, and a self-assessment section and are available to take at any time—anywhere in the world.
